WILDLAND URBAN INTERFACE (WUI)

3Di

Save lives and property through prevention

THE #1 BRUSH ABATEMENT DIGITAL SOLUTION

In 2018, there were over 7,500 wildfires in California alone, burning over 1.6M acres. At 3Di Systems, we believe that the best way to help reduce the risk of wildfires is through prevention. That's why we created the 3Di Prevent Wildland Urban Interface, built specifically to help automate your brush abatement program with workflows, scheduling, GIS mapping, staff dashboards, and more.

THE 3Di ADVANTAGE

3Di Systems has the #1 solution on the market when it comes to brush abatement and fire inspection management. 3Di Systems works as your partner, helping you to implement the right technology to help your city to become more responsive, streamlined, and effective. 3Di Prevent and its Wildland Urban Interface Solution were built in partnership with firefighters that have been through countless fire seasons and understand exactly what it takes to create an efficient, comprehensive solution for reducing fire risk.

With an array of solutions built to help digitally transform government and public sectors, 3Di Systems has partnered with prevention agencies like yours. Our cloud-based technologies have increased capabilities and improved experiences for cities, counties and communities across the nation.

3Di PREVENT

Prevent is the most comprehensive fire inspection management solution on the market today. With a universal role-based portal, GIS-based structural inventory, case management workflows, real-time reporting, and more. 3Di Prevent can help you to take the next step in protecting life, property, and the environment.

3Di Prevent is the dependable, safe and secure way to systematically automate everything from annual inspections to property complaints. Prevent can also help to provide a seamless and unified experience across all devices and channels, from the web, to mobile, to call centers, and beyond.

3Di SYSTEMS HAS HELPED COUNTLESS FIRE AGENCIES TO SAVE LIVES WITH AN AFFORDABLE, CLOUD-BASED SOLUTION.
